I believe it is a service that we pay for any that don't want to listen don't pay for the service and leave the ones that do alone. I don't listen to Howard Stearn on the radio but everyone is trying to get him kicked off the radio and i believe if you don't want to hear him change your channel all you people are doing is forceing him off the then he'll come on XM and more people will subscribe to XM your hurting yourself
